Forecast for Monday 23 Aug 2021

Weather: Always cloudier across eastern peaks such as Ben Wyvis, where some patchy light rain or drizzle appears early and late in the day, also here a few light afternoon showers developing. Across the rest of the area the vast majority will stay dry with cloud most broken in the west in Torridon, Knoydart and across the Cuillin Ridge.

Chance of cloud free mountain/hill tops above 800m: Ranging from 90% in the far west and 20% across the far east early and late in the day.

Visibility: Out with the cloud good, becoming in light rain, drizzle and showers moderate or poor, virtually nil in hill fog with bases broken or extensive from 450m in the far east early and late in the day.

Met Office Aberdeen Meteorologist's View
Nothing to add.

Forecast for Tuesday 24 Aug 2021
Weather: Eastern ranges again tending to be cloudier, possibly seeing some early light rain. However the majority will stay dry with bright and sunny spells best in Wester Ross and Skye. Drizzle, low cloud, mist, fog patches feeding across northern most ranges from late evening.

Maximum wind: North to northeast 10mph or less

Chance of cloud free mountain/hill tops above 800m: Ranging from 90% plus in the far west and 30% across the far east early in the day and virtually nil across the far north from late evening.

Visibility: Out with the cloud generally good. In light rain, drizzle in east becoming moderate or poor. Virtually nil in hill fog with bases extensive to 450m in the far east early in the day, and to 300m from late evening in the north.

Temperature: **Glens:** Plus 10 Celsius increasing 20 Celsius during the afternoon
At 800m: Plus 10 Celsius increasing 14 Celsius during the afternoon
Freezing level: Well above all summits.
